Motor Control
Zachery Paden-Corydon Central
Computer Programming
Aaron Zirkle-North Harrison

BRONZE

Masonry
Conner Tungate-New Albany
Fire and Rescue

Noah Clark-North Harrison
First Aid/CPR
Danielle Marlow-Charlestown
Med Terms
Liam Noel-Floyd Central
Motor Control
Tristin Amy-New Albany
Nurse Assistant
Christina Walton-Crawford Co.

Culinary Curriculum Program Highlight

Chef Paro poses with the students and teachers from the Restoration Christian Pre-Kindergarten class.

Prosser Culinary Arts program hosted an educational event for the Restoration Christian Pre-Kindergarten class on May 2, 2018. Chef Paro and his PM students taught the kids about bread, showed them a live lobster, gave a tour of the Prosser kitchen, and shared some delicious cookies at the end of their visit. This opportunity allowed community children, parents, and educators to learn more about Prosser and all our Culinary Department has to offer. We are thankful to Mrs. Chitwood and Mrs. Minton of

Restoration Christian for bringing their students to experience our culinary world. We are #prosserproud of our students and staff for hosting this event!

Prosser Signing Days School Highlight

On April 27th, April 30th, and May 2nd, Prosser Career Education Center held Prosser Signing Days. Each day, students were recognized for committing to either college, apprenticeship school/workforce opportunity, or military. Representatives from colleges, work places, and military branches were present to recognize our students for their hard work, determination, persistence, and commitment. Parents and other community members were able to observe in person or through Prosser's Facebook Live Stream. Director Alan Taylor said, "The career paths that our students have chosen are just as important as any student graduating from any high school, and so being able to recognize and acknowledge students whether they're going on to post-secondary college, an apprenticeship school, the military or even the world of work or employment, they've chosen this as their next step in their career path."
